SSI PHASE I: SITE DISCOVERY

IEDC Strategic Sites Inventory Program

LOCAL SITES REVIEW WORKSHOP FINDINGS SUMMARY

RANDOLPH COUNTY, INDIANA

LOCAL SITES REVIEW WORKSHOP

As part of SSI Phase I: Site Discovery, local sites review workshops seek municipal and county-level stakeholders' input to discuss, evaluate, and rank SSI Phase I sites from a local perspective. The meetings give insight into utility availability, zoning and future land use, infrastructural developments, and landowner engagement to effectively vet sites for strategic inventory pursuit. The goal of local review meetings is to consult with utility partners, local county EDO representatives, and government officials to review and rank sites for priority interest and advancement to SSI Phase II: Preliminary Due Diligence, which is comprised of a thorough desktop environmental and engineering site review to confirm initial development potential.
