SSI Phase I Implementation Status

Indiana Strategic Sites Inventory (SSI) Program

SSI Phase I: Site Discovery

The data provided represents potential greenfield sites discovered through the SSI Phase I: Site Discovery process. All sites require review by local officials to determine feasibility for use as an economic development real estate asset. Subsequent to local sites review, landowner engagement will be conducted to determine interest in placing property on the market.

Potential IPL-served Sites							*As of 2/24/2020*
			Tax Parcels		Transportation Access		
County	SITE ID	ACRES	No. of Owners	No. of Tracts	Rail	Interstate	Nav Water
Marion	18097-001	771.2	1	27		X
