

SSI PHASE II
CANDIDATE SITE INDEX

WHAT IS SSI PHASE II: *PRELIMINARY DUE DILIGENCE?*

SSI Phase II objectively defends the competitive claims of a greenfield site through extensive data collection and detailed mapping and desktop observations along engineering, environmental, and community factors. Includes a rough order-of-magnitude cost for site development readiness and professional consulting opinion for overall site competitinvess as an economic development real estate asset.

- Assess site conditions and setting against the intended highest and best project land use intensity.
- Gain quantitative understanding of overall development potential prior to investing in full scale due diligence.
- Position site for advancement to market while creating technical marketing and RFI response resources.

PHASE II PRIMARY SITE ASSESSMENT CATEGORIES

Condition of the site's physical characteristics including assessment of engineering and environmental development advantages and challenges.

Connection to transportation assets, utility infrastructure, and major market areas.

Community support including available workforce, cultural feature impacts, and business climate for economic development.

SSI PHASE II CANDIDATE SITE INDEX
PURPOSE

Assign an a-political score for SSI Phase I sites to provide a relative indication of site strength for advancement to SSI Phase II.

Apply to SSI Phase I sites receiving a 4.0+ ranking through the SSI Phase I local sites review workshops.

Assist SSI Program communities with nominating highest quality sites for advancement to SSI Phase II.

INDIANA STRATEGIC SITES INVENTORY PROGRAM

Indiana Economic Development Corp

INDIANA POWER PARTNERSHIP

The Indiana Economic Development Corporation (IEDC) initiated the Strategic Sites Inventory (SSI) Program in 2018 with an investment in SSI Phase I: Site Discovery across all 92 Indiana counties. The goal of SSI Phase I is to increase economic development competitiveness by identifying new, nationally-competitive greenfield sites ideally suited for industrial and commercial projects. Since 2018, the Indiana SSI Program has identified ***a total of 1,726 potential competitive sites*** for large-scale industrial manufacturing projects including megasite, heavy industrial, light industrial, heavy agribusiness, and general agribusiness land use intensities.

PHASE II CANDIDATE SITE INDEX

METHODOLOGY

SSI PROGRAM

SITE ANALYSIS FUNNEL SAMPLE

3-STEP SITE NOMINATION PROCESS

1. REVIEW

Through the SSI Phase I local sites review workshop, LEDO and county officials review potential sites to provide utility, transportation, land use, and zoning information to determine site viability. Sites are ranked based on strength as an economic development real estate asset. Only sites scoring 4.0+ are considered for SSI Phase II nomination.

2. FILTER

Sites are programmatically filtered based on satisfaction of various site readiness facto (competitive-ness driver) and earn a Composite Score on a 100-point scale. Site readiness factors and respective weightings are enumerated on the Composite Score Card.

3. EVALUATE

Filtered sites are than screened individually by skilled consultants to ensure that all factors have been considered and weighted appropriately. Composite Scores reflect relative strength as an SSI Phase II candidate site..

LANDOWNERS (+5)
Site is owned by a single landowner who is actively marketing the property.

WETLANDS (–5)
Site contains moderate amount of wetlands, limiting total buildable acreage.

RAIL ACCESS (+5)
Site is adjacent to Class I rail line with ability to construct a spur into the property.

Road improvements are taking place:
10 Points Added.

Wetland areas limit contiguous buildable area:
5 Points Deducted.

Incompatible land use development adjacent to site:
Site Removed.

COMPOSITE SCORE CARD: WEIGHTED CRITERIA

Competitiveness Driver		
Condition		**20%**
Engineering		
	Elevation/Slope	3%
	Flood Risk	4%
	Buildable Configuration	3%
	Land Cover	3%
Environmental/Cultural Resource		
	Potential Wetlands	4%
	Legacy Environmental Liabilities	3%
Connection		**60%**
Transportation		
	Interstate	15%
	Multi-lane Truck Route (SIS Road)	15%
	Class I Rail	10%
Utilities		
	Potable Water	4%
	Sewer/Wastewater Treatment	4%
	Natural Gas	4%
	Electric	4%
	Broadband/Fiber	4%
Community		**20%**
Cultural		
	Compatibility with Surrounding Land Use	5%
	Current County Land Use and Zoning	2.5%
	Number of Landowners	7.5%
Labor		
	Workforce	5%

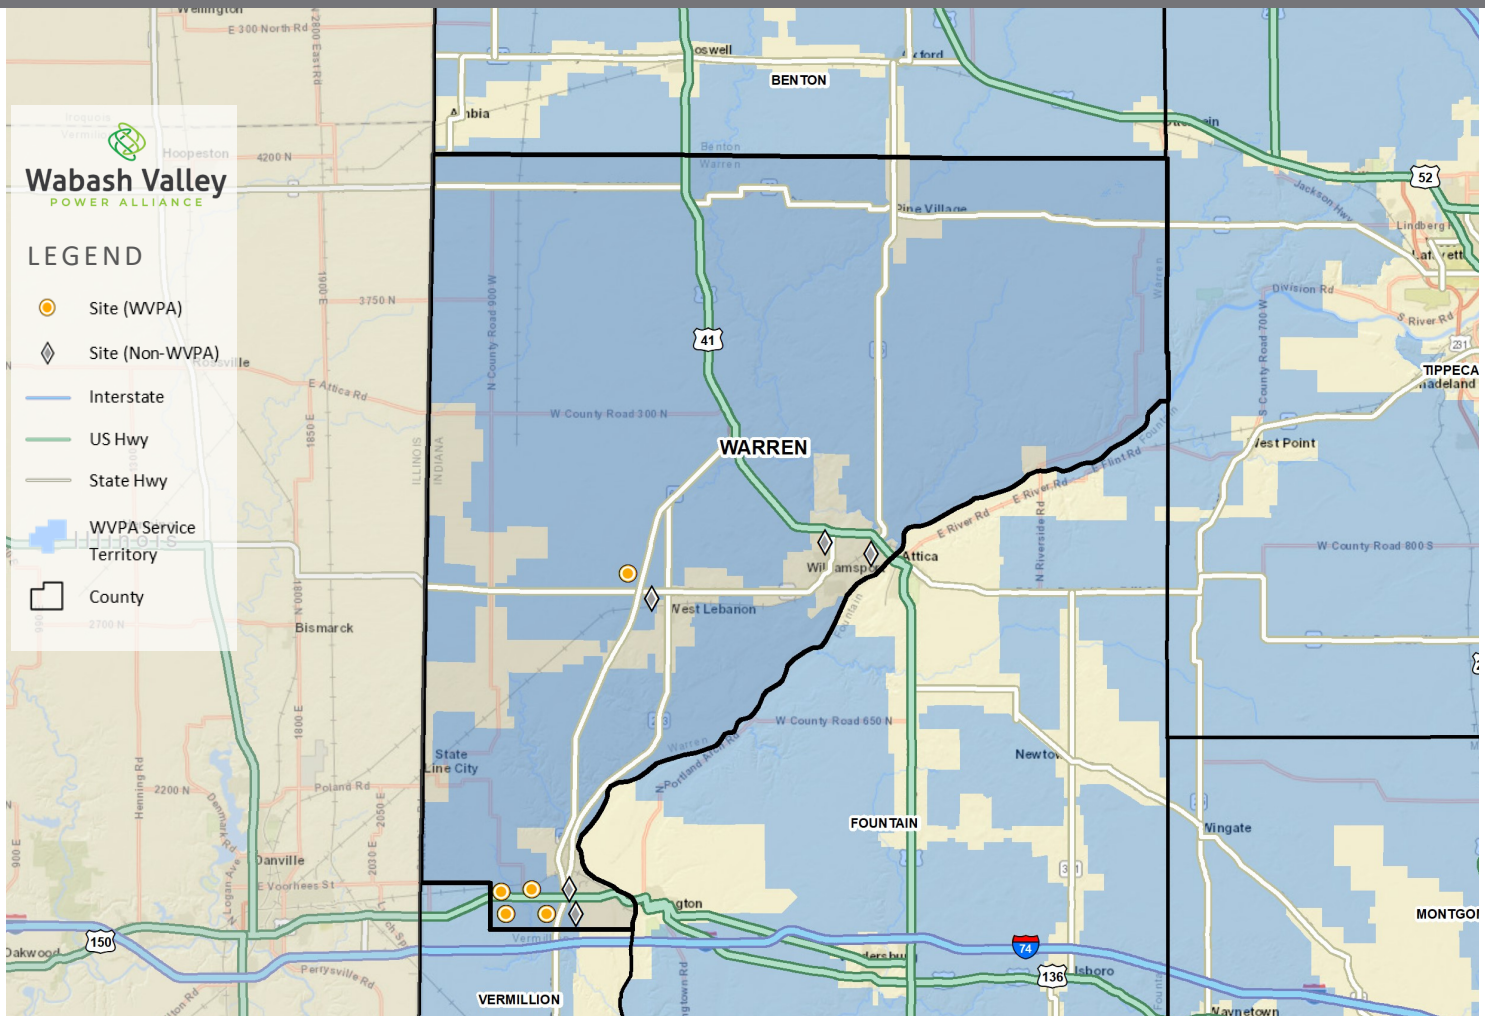

A composite score of 0-100 was developed for each county-reviewed site in order to identify sites with the highest development potential. The above table shows factor weightings (percentages) of each "competitiveness driver" for the overall composite score. Scores are then used to prioritize and nominate individual sites for SSI Phase II and subsequent advancement to inventory development.

PHASE II CANDIDATE SITE INDEX

WARREN COUNTY

SSI PROGRAM

SSI Phase I Overview: TOP SITES

COUNTY STATISTICS

10	SITES IN COUNTY
10	SITES AWAITING REVIEW
5	SITES IN WVPA SERVICE TERRITORY
N/A	4.0+ SITES IN SERVICE TERRITORY
265.2	AVERAGE ACRES
185.7	AVERAGE BUILDABLE ACRES
2.1	AVERAGE OWNERS
5.1	AVERAGE TRACTS

PRIORITY WVPA-SERVED SITES

**Only sites that completed SSI Phase I local sites review workshop were considered in this analysis.*

Site ID	Priority	Acres	PAD Acres	Owners	Tracts	Rail	4-Lane	Interstate
18157-001	1	310.7	200	2	8	•	•	•
18157-015	2	117.7	100	2	4		•	•
18157-006	3	117.4	100	1	2			•

SAMPLE

WVPA is excited to support your community's economic development site readiness with a direct investment in the Indiana SSI Program. We are committed to advancing highly competitive sites to market to ensure WVPA-served communities have the real estate assets necessary to compete for quality job-producing projects.

Prioritizing choice sites for investment in subsequent phases of the SSI Program will assist local economic development organizations in building a comprehensive strategy for increasing overall community prosperity.

If you wish to schedule a local sites review workshop and have not yet done so, please contact *ssalisbury@iedc.in.gov.*
